MARKET SUMMARY

INDIA

- The market remained negative throughout the week, with no signs of recovery in sentiment.
- Buyers are no longer keen to purchase vessels at any pricing level and have stepped back from active negotiations.
- Industry participants are pushing for the Directorate General (DG) government to release the DASR numbers for the yards, which are becoming mandatory.

BANGLADESH

- Signs of recovery are visible in the local market, largely driven by the lack of available tonnage.
- The shortage of units has pushed buyers to act aggressively, securing tonnage at levels that often exceed economic logic.
- Despite this uptick in activity, the overall economy remains weak, casting doubt on the durability of the recovery trend.

PAKISTAN

- Good progress is being made toward compliance with the Hong Kong Convention (HKC), with many yards investing to upgrade facilities.
- It is estimated that 12–14 yards will soon be ready with HKC certification, making this a market to closely watch.
- After the devastating floods, the market is gradually stabilising, providing a more balanced outlook for the weeks ahead.

TURKIYE

- Import prices declined last week as reported, but this week no further change has been observed.
- The earlier drop has still not reflected in the market, with no shift in sentiment, demand, or overall activity.
- Conditions remain stagnant, with participants continuing to hold back amid a lack of fresh triggers.
