IRON ORE SEABORNE INDEX (IOSI)

MARKET COMMENTARY

| Jun 25th, 2026 |              | CFR Qingdao, USD/dry tonne |        |          |        |        |                  |                   | <div>Today, DCE iron ore futures weakened, with the most-traded contract I2609 closing at 735 yuan/mt, down 1.08% from the previous trading session. Port spot prices fell 5-7 yuan/mt from the previous day. Traders showed modest willingness to quote, while steel mills had a strong desire to push for lower prices. As of now, spot trading volume was relatively low.</div> <div>Looking ahead, amid the steel off-season, export demand for finished steel continued to weaken, driving pig iron production to a turning point, and iron ore demand is expected to shrink further. Additionally, rumors of environmental protection-driven production restrictions, combined with weakening downstream export data, triggered market pessimism, leaving ore prices more likely to fall than rise. In the short term, iron ore prices may trend sideways in a tug-of-war between longs and shorts, while the medium- and long-term outlook is persistently bearish.</div> |  |  |  |  |  |  |

The indices are calculated using detailed transaction-level data submitted to MMi by these companies. This data is normalised to the appropriate specifications and screened to remove outliers before volume-weighted average prices are calculated from the remaining core set of data. |

IRON ORE DOMESTIC CONCENTRATE INDEX CALCULATION METHODOLOGY

The compilation method for price index generally refers to the compilation method of CPI price index and other price indices, breakdown the price data and calculate the average value according to a certain method, taking the vertical axis as the regional composite index (average of different grade index) and the horizontal axis as the grade composite index (average of different regional index), a total composite index for domestic ore can be output ultimately. The process system is also adopted in the calculation i.e. each sub-index can be obtained as well.
